## NEW PRODUCT: **WN2054EFG**

5" THERMOPLASTIC RUBBER  
SHOPPING CART WHEEL WITH  
**FRICION** BEARING

### FEATURES

Diameter:	5"
Load Capacity:	250 lbs.
Tread Width:	1 1/4"
Durometer:	A70 Shore
Axle:	5/16"
Bearing:	QuadX Friction
Wheel Material:	TPR

- Two wheel bearings are mounted in the wheel hub
- A friction insert is placed between the hub and the axle of each bearing
- The insert increases the amount of force that must be applied to make the wheel move forward

### APPLICATIONS

The newest member of the P&H Friction Shopping Cart wheel line is based on our best selling TPR crown tread shopping cart wheel. Friction bearings inside these wheels are the first line of defense in reducing parking lot damage caused by unattended or runaway carts.

- Available in several wheel materials including flatspot resistant
- Install like a standard shopping cart wheel
- Allows shoppers greater control over their carts
- Best performance achieved by installing in pairs on the rear of the cart
