Axle:	5/16"
Bearing:	QuadX Friction
Operating Temp:	-30°F TO 140°F
Series:	30
Weight:	.8 lbs.
Warranty:	2 years

APPLICATIONS

The newest member of the P&H SuperWheel family is a larger 6" diameter wheel that is distinguished by the red field marking in the lower center of the hubguard.

The red marking makes identifying these wheels as the ones that are equipped with our patented QuadX Dual Precision Friction Bearing easy. This friction bearing will help keep runaway shopping carts from accelerating out of control before they damage your property or your customer's property.
