

HIGH TEMPERATURE HEATEATER®

Still the hottest wheel on the market—still made in the USA!

We've taken our highest tolerance high-temp wheel and improved the hub design to better handle impacts. Our new spoked wheel design rolls smoother with tighter tolerances and is now available with our patented precision bearing system.

Options

- Stainless Steel or Zinc Patented Precision Bearings
- Wheel sizes from 4" to 8" featuring 1 3/8" and 2" tread widths
- Caster options for these wheels include a wide variety of mounting attachments in many sizes to fit your equipment, brake options and finishes, including Stainless Steel
